## SECURITY

# Protect your critical data, people and services

New cyberthreats to state and local governments emerge constantly, with an increasing number of endpoints expanding your potential attack surface. It's crucial for your IT team to stay ahead of the risk. Find the help you need with our in-depth cybersecurity expertise and intuitive, flexible managed services. Spectrum Enterprise security solutions are monitored 24/7/365 and kept up to date for you. We provide redundant layers of protection to help keep attacks from impacting the availability of public services and information.

## REMOTE WORKFORCE

# Engage the public and empower your employees wherever they work

Collaboration should happen naturally with your constituents, the private sector and across government departments and agencies. We deliver communication and networking services for citizen- and employee-driven innovation and provide reliable access to the tools that empower the public. Spectrum Enterprise workforce solutions include a full suite of technology services that securely support your operations with a 100% uptime service-level agreement guarantee.\* These include voice and video calling, messaging, meetings and content sharing with our Unified Communications applications. Our solutions can also deliver secure access to your network for remote working employees and constituents.

## CONSTITUENT AND EMPLOYEE EXPERIENCE

# Exceed expectations with a trusted, national provider

Creating cohesive, consistent experiences across multiple platforms for your constituents and employees can be challenging. Spectrum Enterprise delivers compatible technology to manage this complexity, including high-performance connectivity with speeds up to 100 Gbps. Our flexible, scalable solutions enhance user experience and seamlessly integrate internet and networking, voice, collaboration and TV services so your agency can easily adapt to new trends and opportunities.

## GOVERNMENT CONTINUITY

# Build a plan and strengthen your resilience

Natural disasters, fires or even a fiber cut from nearby construction can have a devastating impact on government services. Ensure your network is resilient and reliable to keep your data safe and your agency connected through the unexpected. Spectrum Enterprise government continuity solutions are designed to minimize disruptions with proactive backup services and a 100% uptime service-level agreement guarantee.\* Our solutions have the flexibility to meet your needs as usage increases and are reinforced by local technicians, available 24/7/365 to identify, deliver and implement the support you need.

**GOVERNMENT GROWTH**

# Upgrade your capabilities and serve the public

Embrace your agency's advancement by adopting new technologies that enable your constituents, employees and network resources to continue fulfilling your public mission. Our flexible, collaborative approach can help you plan for the future with a single partner. Spectrum Enterprise tailors solutions to meet your goals, with the agility to adapt as conditions change.
