

Government IT solutions

Spectrum Enterprise® offers the comprehensive suite of solutions you need with the local, experienced support you deserve.

Serve your communities and increase public engagement with a modern, innovative and efficient IT infrastructure.

Modernize and improve services

Bring more government services online and help connect more of your community to programs, opportunities and events. Our modern network solutions enable faster, more reliable and secure communication between your employees, departments and residents.

Manage budgets and control costs

Improve resident services and increase operational efficiency — all while reducing costs. We'll help you navigate complex government contract vehicles and group purchasing options to help you get the services you need within your budget.

Protect data and maintain trust

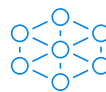

Help secure personal and departmental data, comply with privacy standards and ensure public trust with cybersecurity solutions that scale with your current and future system requirements.

Transform your government services with solutions tailored to your needs.

Internet

Reliably connect your residents, employees and internal departments with internet.

Networking

Gain connectivity your agency can rely on with our [award-winning](#)¹ wide area network (WAN) services.

Managed services

Accomplish more without adding complexity. Our managed services are designed to simplify your IT operations while making your network more reliable, secure and efficient.

Security

Meet your full range of cyber and physical security needs with solutions ranging from advanced firewalls, cloud-based security services, distributed denial of service (DDoS) protection, identity safeguards and provider-managed unified threat management (UTM) to smart cameras, environmental sensors and more.

Voice and collaboration

Delivered over our nationwide fiber network, our voice and collaboration solutions are designed to reliably connect your business and scale to support your needs. Includes phone, video and messaging capabilities.

TV for Government

Inform, engage and entertain with access to over 200 HDTV channels. Ideal for waiting areas, our TV services give you reliable streaming and set back box options.

Why Spectrum Enterprise

For more than 20 years, we've worked with state and local government agencies nationwide to design, implement and manage customized technology solutions. Delivering reliable, secure, high-bandwidth connectivity is fundamental to ensuring effective and efficient government operations. We have your connectivity, voice and video needs covered, along with ensuring you experience seamless implementation and exceptional support.
