

Easy access to cost-effective connectivity solutions with Oregon DAS

Digital transformation and IT modernization are essential to creating a better resident experience. Innovations and system efficiencies that can increase civic engagement and satisfaction require government agencies to have reliable, cost-effective, high-speed connectivity and a solid network foundation.

Procuring the essential networking services and network solutions can be complex, especially for government agencies with limited IT resources. Oregon Department of Administrative Services, State Procurement Services (DAS SPS) has made it easier for state agencies, as well as local government departments, to expand digital services and protect citizen data and government systems.

Through the Spectrum Agreement with DAS SPS, #PO-10700-00004343 (accessible via OregonBuys), discounted rates and terms and conditions are pre-negotiated, which means public entities can more quickly and easily access the technology solutions they need.

Cost-effective solutions available through Oregon DAS

Dedicated Fiber Internet: Increase staff productivity and collaboration with fast, symmetrical internet service with speeds up to 100 Gbps and a $\geq 99.9\%$ uptime service-level agreement (SLA).¹

Ethernet Services: Meet ever-growing data needs by connecting locations with a fast, reliable wide area network (WAN) solution backed by a $\geq 99.9\%$ uptime SLA² and built on a dedicated fiber infrastructure. Bandwidth up to 100 Gbps is available.

served**

A partner you can trust

In addition to the right network solutions, you need a strategy and a trusted partner for digital transformation to be successful. Spectrum Business, a Charter Communications brand, understands no two governments are the same. This philosophy has helped us to successfully serve local and state governments nationwide for over two decades.

We put the needs of our customers first and are committed to ensuring an exceptional customer experience with dedicated local account teams and technicians, 100% US-based support, available 24/7; and a package of industry-leading SLAs. As an Oregon DAS contractor, we can help enhance network services to enable your community to thrive.

Partner with us to deliver high-performance internet and network services to enable Oregon communities to succeed.
