

Save on connectivity solutions in California

Utilize the California Teleconnect Fund and choose Spectrum Enterprise as your provider

California-based public service and non-profit organizations can get connectivity solutions from Spectrum Enterprise at a 50 percent discount through the California Teleconnect Fund (CTF). The CTF, a program of the California Public Utilities Commission, aims to make it easier for non-profit organizations to obtain the necessary telecommunications services to support their communities.

Eligibility: There are only two qualifications to participate. Be a public service or non-profit organization, and be based in California. This includes schools, school districts and community colleges, hospitals and health clinics, and any community-based organization that provides services such as job training/placement, computer training and educational or healthcare services.

Discount: The CTF program provides a 50 percent discount on recurring monthly charges for Internet and broadband communications services. When paired with other discounts (e.g., Universal Service Administrative Company E-rate program), the CTF reduction is applied secondarily to the remaining service charges.

Apply: Download the application form at www.cpuc.ca.gov/ctf and submit it to CTF. Once approved, let us know and we'll apply the discount to your account.

Committed to California

Spectrum Enterprise has participated in the CTF program since 2010 and is committed to serving businesses and non-profit organizations throughout California.

- 4.5 million customers served
- 272 communities served
- 10,000+ CA-based employees
