

# Powered to play. Built to perform for your hotel.

Step into the **Spectrum Game Zone** at **AAHOACON26 – Booth #2630** and see how the same performance that keeps every game running smooth can power your connectivity, WiFi, in-room entertainment and communications.

Join us for golf, games, prizes, demos and more!

## Get in the game with Spectrum Business®

Be your property's MVP with our hospitality-focused solutions.

- Managed WiFi tuned for full property coverage, which reduces support calls and WiFi-related complaints
- Modern in-room entertainment and PMS-integrated streaming solutions that reduce equipment costs —Moviebeam, ROOMNET and Set Back Box TV
- PMS-integrated Unified Communications (UC) for Hospitality that automates workflows across front desk, housekeeping and engineering
- Reliable high-speed Dedicated Fiber Internet limits costly outages and includes a 100% uptime SLA guarantee
- Scalable infrastructure — from the nationwide Spectrum Fiber Broadband Network — that avoids costly upgrades

### Power every play your property makes.

- Faster connections at every turn
- Cleaner handoffs across your team
- Network power that keeps up

## Elevate the guest experience – no lag, no friction

Guests expect their stay to feel like a great game session – fast WiFi, seamless streaming, responsive communications and frustration-free connectivity.

- Provide a seamless, high-speed, fully connected stay — everywhere on your property
- Deliver property-wide fast, reliable WiFi
- Give guests app-driven, streaming-ready TV so they can pick up shows where they left off
- Use PMS-integrated in-room entertainment and communications for guest personalization
- Reduce “rage-quit” moments like buffering, dropped connections and slow check-in

### Turn every stay into a five-star experience that keeps guests coming back.

- Better reviews
- Repeat business
- Higher guest satisfaction scores

## Maximize revenue – every play, every property

When labor is tight and expectations are high; you need technology that helps you win more rounds with the same team.

- Level up and automate repeatable tasks, so staff can focus on high-value guest moments
- Use PMS-integrated secure, fast and reliable unified communications to improve staff efficiency and workflow automation
- Reduce downtime that leads to lost bookings, refunds and poor reviews
- Deploy scalable infrastructure once and add new “levels” (services) as you grow

### More uptime, more efficiency, more chances to grow RevPAR with fast, secure connections.

- Fewer outages - lower costs
- More efficiency - staff do more with less
- Better tech - higher RevPAR and improved margins

## Simplify operations – one network, one scoreboard

Behind every smooth game is one engine doing the work. Multiple vendors, fragmented systems and rising IT demands overwhelm hotel teams. Hospitality leaders need one partner who can deliver connectivity, WiFi, TV, voice, and support — end to end.

### Go for gold with Spectrum Business:

- Your one partner for internet, WiFi, TV and unified communications
- Use UC for Hospitality as your central “command center” for calls, messaging and PMS data
- Rely on the tailored design, installation and management of Managed WiFi
- Get 24/7, US-based support and end-to-end service management

### Fewer vendors, fewer tickets, fewer surprises – and more time to run the property.

- Fewer vendors
- Less troubleshooting
- Happier staff and smoother operations

## Play in the Spectrum Game Zone at AAHOACON26

- Pennsylvania Convention Center, Philadelphia – Booth #2630
- Try the “Beat the High Score – Powered to Play Challenge” and see how a high-performance network keeps every shot, every sensor and every screen in sync

### Explore hotel-ready demos for:

- Managed Network Edge for Hospitality (with WiFi)
- UC for Hospitality
- TV and in-room entertainment (Moviebeam, ROOMNET, Set Back Box TV)
